## What is a Will?

A Will is simply a formal instruction of what you want to happen to your property and possessions in the event of your death. You must be aged 18 or over.

### Why do you need a Will?

A Will enables you to decide who should benefit from your estate.

### Why bother?

If you die without making a Will, then the Intestacy Rules, set down by Parliament, make those choices for you.

This may cause financial worries for loved ones and family disagreements, as the rules do not take account of your personal circumstances.

### Other considerations

- Second relationships
- Same sex partners
- Anyone who may have a claim on your estate e.g. children
- Executors & Guardians
- Inheritance Tax
- Estranged family members
- Trusts
